

Saif Ur Rehman

SOFTWARE ENGINEER

with 3+ years of experience facilitating cutting-edge web solutions with a wide range of state-of-the-art technology skills. Proven ability to leverage full-stack knowledge and experience to build interactive and user-centered websites to scale.

About Me

I am a full stack software engineer, a scrum master, a freelancer, a product writer, a trekker, a mountain bike rider and nature explorer.

Career Goals

- Take charge of the product on which I will work. I would love to plan features for that product.
- Work on state-of-the-art technologies which also means upgrading the framework whenever possible.
- Become a MERN Stack developer with expertise both in Frontend and backend including databases.
- Work on a system that has X scale or complexity, such as 3 million requests per second.
- Mentor someone and see them get better over time.

Education

2019 | FAST-NUCES, Pakistan

Bachelors in Computer Science

Main Courses:

- Object-Oriented Programming
- Data Structures
- Discrete Structures
- Algorithms
- Machine Learning
- Artificial Intelligence
- Calculus
- Probability
- Advanced Programming (Java)
- Software Engineering

Full Stack Developer

Grupo Telintel S.A ESP, Colombia / Sep' 2019- Sep' 2020

- Worked as Java Back-end developer (microservices) and as Front-end Web Developer (Voluntarily) for the Integration of embedded Drag & Drop Editor for SaaS into the company's main project.
- Implemented REST APIs in Java, Spring framework. Modified pre-existing methods and made them efficient.
- Refactored normal web project to Angular 8 project. Fixed bugs in the already live Angular 8 project.
- Created Logging Filter service in spring microservice to innovate new and better ways that added value in the microservices and amazed the support team for monitoring the continuous logs of the microservices in docker containers.
- Performed continuous integration of the logs in Docker and performed data analyzation using Filebeat, Logstash, Elasticsearch, and Kibana.
